

K-Love radio station serves my family and the Lexington community in various ways. It brings us all the good news of Jesus through family friendly radio. If K-Love were to be replaced by an LPFM broadcaster, we may no longer have the same positive Christian radio we have come to enjoy. I believe that the service provided by K-Love is of interest to the public because it offers a positive and uplifting message, particularly the message of salvation, to a community that may not hear this type of uplifting broadcasting any other way. Please consider allowing K-Love to remain on our regular FM station!
